There are a lot of decisions to make when it comes to getting the most out of your crop. But there's only one fungicide that goes above and beyond controlling disease in canola by helping increase yield potential. We're talking, of course, about Headline<sup>®</sup> fungicide. Not only does it help control yield-robbing diseases like blackleg, it also delivers the unique, proven benefits that we call **AgCelence**<sup>®</sup>. The evidence? Greener, larger leaves and stronger stems that ultimately result in higher yield potential.
